# DHANUSHKUMAR G

AI Engineer — RAG | Multi-Agent Systems | LangGraph | LLM  
Gateway | Guardrails | MCP | MLflow | Fine-tuning (LoRA/QLoRA)  
| FastAPI | MERN | PERN Stack | AWS | Docker | System Design  
(HLD/LLD) | 1000+ DSA | Open Source  
Coimbatore, Tamil Nadu, India

## Summary

I'm a Full Stack Developer transitioning into AI Engineering — building intelligent, scalable applications that combine solid backend engineering with the power of LLMs, RAG, and AI Agents. With strong expertise in the MERN stack, Next.js, FastAPI, and cloud technologies, I bring system design thinking and hands-on coding to every project. Now I'm layering AI on top — building RAG pipelines, autonomous agents, and LLM-powered backends that solve real-world problems. Project Highlight – Spotify Clone (Microservices) A real-time music streaming application built with MERN and microservices architecture. Demonstrates distributed systems design, real-time communication with WebSockets, Redis caching, load balancing, and production-grade deployment with Docker and CI/CD. Currently Building With LangChain · LangGraph · RAG Pipelines · AI Agents · OpenAI API · Anthropic API · pgvector · n8n · MCP DevOps & Cloud CI/CD automation, Docker, AWS (EC2, ECS, Lambda, S3) — bridging development and operations for faster, reliable releases. Core Skills Frontend: React.js, Next.js, TypeScript, TailwindCSS Backend: Node.js, Express.js, FastAPI, RESTful APIs, WebSockets AI & LLM: LangChain, LangGraph, LangSmith, OpenAI API, Anthropic API, Hugging Face RAG & Agents: RAG, AI Agents, CrewAI, Vector Databases, Embeddings, Prompt Engineering Databases: PostgreSQL, MongoDB, Redis, pgvector DevOps: Docker, AWS, Git, CI/CD Other: System Design, Microservices, DSA (Java), n8n, MCP What Drives Me I love solving complex technical challenges and building systems that actually matter. Currently focused on AI Engineering — combining my full-stack foundation with LLMs, agents, and automation to build the next generation of intelligent applications. Open to AI Engineer, Full-Stack AI, and LLM Engineer roles at product-based companies and AI startups.

## Experience

CodeTech IT Solution

Web Developer

December 2024 - January 2025 (2 months)

India

---

## Education

Hindusthan College Of Arts And Science

Master of Science in Information Technology , Computer Science · (July 2025)

Nallamuthu Gounder Mahalingam College

Bachelor of Computer Applications, Computer Applications · (August 2022 - May 2025)

NVMHS School

Computer Applications · (January 2020 - April 2022)
